

Rabies Information:

Any time a human is bit by an animal you should contact Animal Control or Local Law Enforcement to report the Bite. The biting animal must be quarantined for 10 day if it is a domestic animal regardless of its vaccination status. This is required by Law and for the bite victims protection. This is not to punish the Pet or the Owner. The pet owner will be allowed to reclaim his/her pet after the 10 day quarantine period has expired. Please see fee schedule for quarantine fees or Contact Kerr County Animal Control.
